Spencer Bristol Engineering is a full service MEP consulting engineering firm founded in 1995 with a mission to bring an honest, uncomplicated approach to engineering.

Our philosophy of approaching each project as a design partner has earned us a solid reputation for quality, reliability and responsiveness.

We'll bring to your next project a talented, experienced staff backed by state-of-the-art technologies, active principal involvement, and attentive client service from the first step until the last when the project has been completed and all systems are functioning as they should.

## Project Currently in Design:

Jackson County Jail  
Jefferson, Georgia

This new \$28 million complex will contain a Detention and Housing building with space for 424 inmate beds with the capacity to expand to 656, plus a 24 hour Dispatch Center; Jail Support facility with booking, holding and special purpose cells; medical facility; a laundry facility and a kitchen.

The Jail Administrative facility will include the sheriff's suite of offices, a hearing room, criminal investigation offices and physical training facility.
